APP #5

Evernote

For years I was notebook obsessed. I had a bunch of them in all shapes and sizes. And if they had designs on them, I bought at least 5. I constantly bought new ones which would have my notes all over the place and I couldn't find them when I needed them. Evernote has solved that problem for me! Now all my notes for my life and business are stored in the cyber clouds, where I can reach them on my laptop, web or smart phone. I use it every single day.
